

## Model 300 (Dual Scale)

The NorTorque<sup>®</sup> utilises Norbar's proven mechanism and internal components and incorporates them into a purposeful and attractive torque wrench.

In developing NorTorque<sup>®</sup>, Norbar's objective was to deliver outstanding quality and performance in a value for money package. Fine engineering ensures that the wrench adjustment is both fast and fingertip light meaning that you can do your job more efficiently.

Accurate to  $\pm 3\%$  of reading which meets the requirements of ISO 6789-1:2017 with models available to cover 12 N·m to 340 N·m.

**Part number:** 130105

**EAN Bar Code:** 5060207565370

**NATO number:** 5120-99-8434986

**Accuracy:**  $\pm 3\%$

**Operates between:**

**60.00 - 300.00 N·m**

**45.00 - 220.00 lbf·ft**

## TECHNICAL SPECIFICATIONS

- Length: 588mm
- Weight: 1.4kg
- Ratchet Teeth: 60
- Square Drive: 1/2"
- Ratchet Diameter: 52mm

## FEATURES

- Convenient hanger feature for tool storage also aids wrench unlocking and adjustment
- Just eight turns to cover the entire scale
- Micrometer scale applying to the primary torque units (N·m on a dual scale wrench) for simple and error free setting
- Push/pull lock is fast and intuitive to use and prevents accidental adjustment of the set torque
- Light and fast adjustment saves operator time and effort
- Push through ratchets with a narrow engagement angle of 6° for working in tight space
- Meets the requirements of ISO 6789-1:2017
- Each tool is supplied with a traceable calibration certificate
