# Slow Retract Hose Reel

Designed with increased safety in mind.

PCL's new user-friendly slow retract hose reel features a soft touch flexible hose which gives increased comfort for the user. The reel also incorporates an auto lock allowing the hose to stop in any position and auto rewind allowing ease of use and reducing non-value added time.

The hose reel comes complete with an easy to fit wall mounting 180° swivel bracket, enabling easy user manoeuvrability.

Designed with safety in mind, the slow retracting mechanism prevents accidental loss of hose control during retraction, reducing the risk of injury or damage. While the self-layering design neatly stores the hose with no kinks, tangles or effort.

Suitable for air application in workshops. The slow retract hose reel is available with a choice of two popular hose lengths.

Wall mounting swivel bracket

Self-layering

## Key Features

- Slow retraction
- Soft touch flexible hose
- Self-layering
- Auto lock - any position reel stop
- Auto rewind
- Wall mounting 180° swivel bracket
- Easy access points

## Key Benefits

- Very easy to use
- Increase safety
- Reduces non-value added time
- Easy to install and maintain
- Long life and low life time costs

## Specification

### Dimensions

L x W x H:	270 x 500 x 470 mm
Weight:	10.35 kg
Diameter approx.	450 mm

### Material

Hose:	Rubber & PVC blended
Reel / case type:	Retractable / polypropylene

### Pressure Measurement

Maximum working pressure: 300 psi

### Application

Air
